

Aquila TD302REC Water Recycling Pressure Washer

Theoretical Water Usage

Maximum pressure 300 bar, maximum water flow 18 litres per minute

Water usage in litres

Water reclamation %	Litres per minute	Litres per hour	Litres per 4 hours	Litres per 8 hours
Non recycling	18	1080	4320	8640
95% reclamation	0.9	54	216	432
90% reclamation	1.8	108	432	864
85% reclamation	2.7	162	648	1296

Notes

1. The above figures assumes machine being used continuously on full water flow
2. Recycling water tank and cyclone will require emptying – depending upon level of soiling and frequency of use
3. Floor and wall cleaning tools supplied by tensid uk ltd
